*Dawn M. Fusco, RDH, MA*

Dear New Patient,

Welcome to Connecticut Family Dental Group. We are pleased you have chosen us for your dental health care. Through a combination of continuing education and state of the art facility and equipment, we are able to offer you the high level of care you are looking for, in a pleasant and relaxed environment. Our friendly staff, warm office, and caring attitude will put you at ease when you come into our office.

As a new patient, we would like to share our approach to service. We realize you may have questions regarding our specific dental practice, office policies, Insurance, and fee structure, so feel free to browse our website or ask one of our knowledgeable administrative staff members any questions you may have. We believe quality care should be made available to everyone.

Preventative dentistry is our goal for every patient. This involves daily dental hygiene, proper nutrition, periodic cleanings and check-ups. It may not be where we start with every new patient, but that is what we want to attain and maintain, especially with all the [evidence linking dental health to overall health!](#)

Please bring all current x-rays from your previous dentist (including bitewings taken within the last 2 years and panoramic/Full mouth series within the last 5 years). We need current x-rays to complete a through exam; therefore, if x-rays are not available – new ones will need to be taken. Also, if you need to PRE-MEDICATE prior to dental work – please let us know in advance of your appointment. Thank you.

Welcome again. We look forward to meeting you!

Very truly yours,

*Connecticut Family Dental Group*
